

BALE JAIL

CRADLE HAY FEEDER

CHF5

TRAY HAY FEEDER

THF5

SLIDING GATES HAY FEEDER

SGHF

INNOVATIVE DESIGNS REDUCING WASTE

From years of testing, BALE JAIL has developed a range of products that will provide the best return on investment by balancing the feed saving against the cost of the products.

HIGH QUALITY CONSTRUCTION

All tube of BALE JAIL products is hot gal dipped. This coating can be 3 times thicker than pre-galvanized tube and has excellent resistance to corrosion. All sheetmetal is also coated with zinc. These features ensure BALE JAIL products have longevity.

EASY TO USE

The products are designed so they are easy to load and shift. All products except the Sliding Gates Hay Feeder can be moved with feed in them. The Cradle Hay Feeder and Sliding Gates Hay Feeders can be loaded without Front End Loaders.

STRONG

BALE JAIL products have had years of testing. The size and thickness of tube ranges to ensure the designs can withstand any rough treatment from cattle. The thickness of steel used can be significantly thicker than comparable products.
